#### VET Excellence Awards

The VET Excellence Awards highlight best practices and recognise excellence in Vocational Education and Training (VET) all over Europe. By showcasing outstanding examples of VET, we provide visibility and recognition for good work – and motivate individuals and organisations that work with VET. This serves to build new networks, expand existing ones, and create new career opportunities.

By using the awards as benchmarks, and creating a movement with its focus on excellence in VET, the initiative reaches far beyond the usual VET stakeholders. It ultimately raises the attractiveness of VET - one of the aims of the European Vocational Skills Week.

#### Training at Work award

at most 1 selection(s)

#### Virtual Dawn, Finland

Virtual Dawn is empowering people around the world to create Virtual Reality content. These tools are being used in Unity Game engine and contain the codes and the contents that are used to create Virtual Dawn simulations and games. The people who work with Virtual Dawn get a chance to create a project they want as part of their workplace training. So far, this has been a very good way to give creative minds a nice way to get to know Virtual Dawn. **Social Media** 

#### Zora Robotics NV, Belgium

ZoraBots is a robotics company founded in 2011 by Fabrice Goffin and Tommy Deblieck. It's the best educational and service robotics company in Europe, with four offices around the world. ZoraBots has an inbuilt integrated learning system that enhances teaching of STEM subjects and computer programming languages like Scratch for beginners, Python for intermediate, C++, JavaScript and the Robot Operating System for advanced users. **More...**

#### The Entrepreneurial School - TES, JA Europe award

at most 1 selection(s)

□ Vocational Education Competence Centre Riga State Technical School, Latvia

Riga State Technical School is a vocational education institution which offers vocational secondary education programmes as well as individual vocational education programmes. The school has 36 accredited vocational education programmes in technical engineering as well as vocational development and further training programmes, educating specialists for almost all sectors of the Latvian economy. **More...**  Laboratory of Special Vocational Education of Agios Dimitrios (EEEEK of Agios Dimitrios), Greece

目 ☆

The Laboratory of Special Vocational Education of Agios Dimitrios is a public secondary school for students with disabilities. The school promotes entrepreneurship education by preparing students to adapt to their future workplaces. For the last six years, we have been developing student entrepreneurship programmes in collaboration with Junior Achievement Greece (JA Greece) with significant distinctions, and have managed to transform a virtual business training programme into a social cooperative enterprise where the school graduates are employed. More... Otrajā lapā pēdējā (apakšējā) no nominācijām ir The Entrepreneurial School – nominācija, kurā izvirzīts Latvijas pārstāvis PIKC **Rīgas Valsts** tehnikums.

#### The city of my dreams, Albania

'The city of my dreams' is an initiative in the city of Kukës that involves five schools and the local community. It aims at creating an ecological city that makes use of renewable energy sources and introduces nature-based solutions at the municipal level. In the context of the project, students are developing a guide with three solutions to real urban development problems in the community, from which one will be sent to the municipal office of urban planning and become part of the regulatory plans of the city. **Social Media**  Environmental and Agricultural Education in School, Georgia

The Ministry of Environmental Protection and Agriculture of Georgia introduced the programme 'Environmental and Agricultural Education in School,' which is being implemented nationwide to enhance environmental and agricultural awareness, green skills and knowledge in schools through the integration of these into subject matter, particularly at the elementary school level. In 2020, a textbook for primary school teachers was developed that presents eight topics that combine theoretical material, activities and complex assignments. More...
